LawMaster upgrades the way law firm achieves ISO 9001 Certification

For Gold Coast legal practice, Attwood Marshall Lawyers, maintaining their ISO 9001 certification is essential for both reputation and growth. But undergoing the regular three-yearly audit process to prove compliance is an enormous undertaking for this full-service firm of three branches and over 50 staff. Meeting the stringent compliance standards is usually extremely time-intensive and resource-heavy.

A MORE INTELLIGENT WAY

Attwood Marshall Lawyers upgraded to LawMaster and found the entire Certification process faster, more streamlined and more efficient. It was LawMaster's superior document automation, custom workflow capabilities, and compliance tools that made the difference. Demonstrating the required policies and procedures to the independent auditor was easy and indisputable, and required minimal manual input.

The LawMaster technology drove the entire compliance process, freeing up staff to focus on the practice of law.

IN-BUILT WORKFLOWS EMPOWER AUTONOMY

Key staff members were trained in LawMaster's automation. This knowledge has given the firm superior in-house capabilities and it can now further develop more complex and advanced workflows without the need to outsource.

"WE'RE A FORWARD-THINKING, INNOVATIVE FIRM AND THIS CERTIFICATION IS SO ADVANTAGEOUS, FOR OUR STAFF AND CLIENTS. LAWMASTER ENABLES OUR FIRM TO GAIN COMPLIANCE IN A HIGHLY EFFICIENT WAY BECAUSE IT AUTOMATICALLY CAPTURES EVERY STEP OF EVERY PROCESS. IT WAS SIMPLE FOR US TO MEET WITH COMPLIANCE REQUIREMENTS. EVEN THE INDEPENDENT AUDITOR WAS IMPRESSED WITH LAWMASTER'S IN-BUILT WORKFLOW AUTOMATION"
